5	Ms.P. D.Borawake	Member, Lecturer in Diploma
6	Mr. Ashok Mahajan	Member (Junior Clerk)
7	Mr. Rohit Ghone	Member (Junior Clerk)

SC/ST Cell

Scheduled Castes (SC) and Scheduled Tribes (ST) have been identified as the two most backward groups of Indian Society. They include all the castes, races or tribes, which have been socially, economically and educationally backward. The cell has been established to support and to bring students from such communities in the main stream.

The SC/ST cell of the college was established in 2018 with the purpose to empower the SC/ST students in the college. The college takes special interest in facilitating financial support to students from these communities from government agencies and other sources. They are also encouraged to enroll for career orientation programs, which would equip them with the necessary skills to choose a career option.

Objectives: -

- To counsel and guide SC/ ST students and help them to manage academic and personal issues of college life effectively.
- To ensure provisions of an environment where all such students feel safe and secure.
- To provide prompt counseling for any emotional emergencies arising on account of any event at the campus.
- To provide the mechanism to redress the grievance of SC/ST students, if any
- To ensure protection and reservation as provided in the constitution of India.
- To arrange for special opportunities to enhance the carrier growth
- To aware the SC/ST students regarding various scholarships program of State Govt. and UGC.
- To take such follow up measures to achieve the objectives and targets laid down by the Govt. of India and the UGC.

Mechanism: -

- As per university guideline, college constitutes the committee. The cell gives different information to the students of SC and ST communities. Meeting are arranged by cell time to time.
- The committee collects reports and information of State Govt. and UGC's orders on various aspects of education, employment of SC/ST & OBC Students.
- The committee circulates State Govt. and UGC's decisions about different scholarship programs.
- The committee communicates with the students and motivates them for better future planning.

• Internal Quality Assurance Cell

- The IQAC has been set up as per norms since 2014. The approach of IQAC has always been focused on student-centric teaching learning process and has designed the policy to assess and evaluate it from time to time
- The Quality policy is designed by IQAC under the chairmanship of the Principal. It is designed taking into consideration the mission and vision of the college and three aspects viz quality initiative, quality sustenance and quality enhancement and the objective of the IQAC is to ensure the highest degree of quality in all facets of the institution
- The quality policy is driven by sensitizing each and every faculty and staff member about the importance of quality and the results to be achieved by maintaining highest quality standards in this era of competition. The quality policy is deployed by all the faculty and staff members as the quality culture has been institutionalized. It is deployed in all departments, in all activities and its continuous process with a thrust for continuous improvement
- The regular IQAC meetings are conducted. The IQAC reviews the standards laid down in the designing of quality on a regular basis i.e. every quarter and changes if any are laid down during these meetings. The minutes of meetings are displayed on the college website. The issues related to academics, administration, student development, staff development etc. are discussed thoroughly in the meeting and recommendations are put forth. The quality sustenance and improvement processes are discussed, analyzed and implemented by the various heads of the department

• Innovation Cell

Institution's Innovation Council (IC201912492)

Ministry of Education (MoE), Govt. of India has established 'MoE's Innovation Cell (MIC)' to systematically foster the culture of Innovation amongst all Higher Education Institutions (HEIs). The primary mandate of MIC is to encourage, inspire and nurture young students by supporting them to work with new ideas and transform them into prototypes while they are in informative years.

MIC has envisioned encouraging creation of 'Institution's Innovation Council (IICs)' across selected HEIs. A network of these IICs will be established to promote innovation in the Institution through multitudinous modes leading to an innovation promotion eco-system in the campuses.

Major focus of IIC

- To create a vibrant local innovation ecosystem.
- Start-up supporting Mechanism in HEIs.
- Prepare college for Atal Ranking of Institutions on Innovation Achievements Framework.
- Establish Function Ecosystem for Scouting Ideas and Pre-incubation of Ideas.
- Develop better Cognitive Ability for Technology Students.

Functions of IICs

- Conduct various innovation and entrepreneurship-related activities prescribed by Central MIC in time bound fashion.
- Identify and reward innovations and share success stories.
- Organize periodic workshops/ seminars/ interactions with entrepreneurs, investors, professionals and create a mentor pool for student innovators.
- Network with peers and national entrepreneurship development organizations.
- Create an Institution's Innovation portal to highlight innovative projects carried out by institution's faculty and students.
- Organize Hackathons, idea competition, mini-challenges etc. with the involvement of industries.

List of facilities available

• **Games and Sports Facilities:**

Cultural and sports activities are important in overall development of students. Besides providing basic facilities, college encourages the students to play and participate in various sports activities and competitions. The college also offers flexibility in academicschedules to the students representing the institution at various events. The followings facilities are available for the students:

- **Extra-Curricular Activities:** College has Seminar Hall as well as open space auditorium for organizing cultural events. Students are promoted to participate in various cultural activities like Fresher's Welcome function, Annual Social Gathering, Farewell function etc. Seminar hall has the seating capacity of 150 students. Open space auditorium is available in campus with 200-250 seating capacity which is used to conduct cultural as well as co-curricular activities. In institutional annual social gathering many competitions like solo dance, group dance, singing, fashion show, drama, cocktail etc are organized. Apart from these, other competitions like mehendi, rangoli, drawing, nail art, photography, essay, elocution etc are organized.
- **Facility for Sport and Outdoor Games:** The college provides indoor & outdoor sports facilities to students. Students actively participate in intercollegiate and interclass competitions. Every year, the college organizes sports meet for the students. The college

has well maintained playground with an area of 4 acre for outdoor events like volley ball, badminton, throw ball, football, kho-kho, kabaddi and cricket, tug of war and athletics.

- **Facility for Indoor games:** The college has provided the facilities for indoor games like Table Tennis, Chess, and Carom etc.
- **Gymnasium Facility:** To maintain and improve the health of students and faculty, the college has provided additional space for gymnasium. Spacious, ventilated and well equipped gymnasium is made available with the instruments like four station gym, treadmill, exercise bikes, bench press with dumbbells etc. Gym facility is made available to the students and faculty before and after college hours.

List of Games, Sports and Extra-Curricular facilities:

Sr. No.	Particular Facility	Area

19. Accounted audited statement for the last three years: Uploaded on website as **Annexure - VIII**

20. Best Practices adopted, if any

The college has practices **Journal club activity** and **Problem Based Learning** activity as a part of best practices.

Title of the Practice

1. Journal Club Activity

Objectives of the Practice

Journal clubs are a well-recognized quality improvement strategy used by health practitioners to critique and keep up-to-date with relevant health literature. The Journal Club of Department has been formed to keep pace with the knowledge explosion taking in the field of Pharmaceutical Sciences. The club intends to discuss actively the literature pertaining to latest findings in the areas of Pharmacy. The main objective of this activity is to enhance knowledge along with improvement in critical literature appraisal skills and to generate ideas for future research.

The Context

A successful journal club is said to be long existing and high attending program. It is effective in most of the time with a single leadership (program director), mandatory attendant (administrative incentives) and motivation (interesting and healthy environment). It can be made fruitful if it is question or problem driven; appraisal focused and seeks to generate a written record.

The Practice

1. Faculty Members of the department meet to choose the facilitator for the next three months and to decide about the paper to be discussed in the next meeting.
2. Fifteen days are given to the members to read the paper and get prepared for the discussion.
3. The assigned paper is thoroughly discussed (about 30-40 min.).
4. Paper for the next meeting is decided by the members

Criteria for selection of an article:

1. The article should be relevant to the goals of the journal club
2. It should be of a suitable length.
3. The material should stimulate discussion.

Role of the participants:

1. To attend and participate actively.
2. Critique the article/paper frankly
3. Evaluate the activity.

Evidence of Success

Journal club is a group of college teachers who meet regularly to critically appraise published research papers.

1. Acquisition of critical appraisal skills.
2. Promotion of critical thinking.
3. Improvement of reading habits.
4. Improvement of group participation and presentation and communication skills.

5. Strengthening of collegial relationships.
6. Development of research, writing, and publishing skills.

The practice of journal club is adjusted and formatted according to the set goal of the organizing authority and the learning objectives of the participants. Depending on the adult learning principle there is scope for innovation. Evaluation of the program and its individual segments has provided information for further improvement.

Title of the Practice

2. Problem Based Learning (PBL)

Objectives of the Practice

The objectives of this practice are to develop i) cognitive (Knowledge), ii) affective (attitude) and iii) psychomotor skills of the students through the process of acquiring new knowledge based on recognition of a need to learn. It's a technology platform to enhance the teaching & learning process for students.

The Context

PBL is an instructional method that instigates students to "learn to learn," working cooperatively in groups to seek solutions to real world problems. Learning is initiated by a posed problem i. e. a 'Trigger' that the learner wants to solve. The most critical part of this method is to develop problems (triggers) that i) draw on students' previous learning and experience ii) integrate content objectives with problem-solving skills iii) require a cooperative, multi-staged method to solve and iv) necessitate that students do some independent research to gather all information relevant to the problem. The problem based learning approach i) has greater relevance to the needs of industry, ii) encourages self-directed life-long learning of the student and iii) promotes the ability of the student to retain and apply the knowledge.

In PBL, as knowledge is acquired in the context of a specific problem it is likely to be better focused and retained. PBL needs to be designed in such a way that it will enhance the understanding of the students through practical learning and exhort them for self and better learning.

The Practice

The institution has designated a faculty as a PBL co-ordinator who ensures smooth and effective conduct of the activity. The schedule for conducting PBL for all the classes is prepared in advance and circulated. The students are divided in groups randomly, each group consisting of 6-8 students. Depending on the number of groups of students in a class, the faculty members are designated as facilitators for a specific problem. The 'Trigger' is prepared by the subject teacher on a topic relevant to the course/ subject curriculum, along with the facilitators' notes and submitted to PBL coordinator. Facilitator's notes comprises of the learning objectives and a list of reference books. During PBL session the trigger is conveyed to each group by the respective facilitator. A leader (who co-ordinates the whole process of solving the problem), a reader (who reads out the compilations on behalf of the team members) and a scribe (who writes the notes,

questions, discussions and solutions on behalf of group) are selected amongst each group. The students are directed to list out the learning objectives to be achieved as a team which is then conveyed to the facilitator by them. Learning objectives should be clear, specific and of appropriate scope to be addressed in the time available between sessions (1-7 days). The facilitators play an important role in identifying the correct objectives. The group leader assigns tasks to group members. In the follow-up session, students report on their self-directed study and share their knowledge in the form of solution to the problem. All students are expected to contribute and their unique perspectives are incorporated into the process of problem solving which helps in their knowledge building. The exchange and debate of ideas promotes the consolidation and elaboration of new knowledge and understanding. The scribe prepares a write up on behalf of the team and the reader presents it before the facilitator. Facilitator invigilates this entire process and evaluates each student on the basis of his/her participation.

The uniqueness of this process is development of soft skills among the students such as communication skill, event management, leadership qualities, team management etc. It also enhances the logical thinking approach of the students. These qualities enhance the employability of the students.

The main constraint is the availability of sufficient number of the reference books in the library at a time. Facilitator cannot witness the process in between the first session of understanding the trigger and writing the learning objectives and the follow up tutorial.

Evidence of Success

PBL is a paradigm shift from focus on teaching to focus on learning. The benefits of PBL are that it prepares the students to apply their knowledge and skill to real-world situations/ problems enabling the students to develop communication, reasoning and critical thinking skills. The performance of the students in terms of logical thinking, reasoning, effective communication has been improved tremendously. The results of review of effectiveness of PBL are mentioned as below:

1. Students have developed interest in the process of self-learning.
2. Increased student –faculty interaction is observed.
3. Increased use of computers and library resources by the students.
4. Students continually explore their knowledge, identify both their personal learning needs and strategies required to address them. This process helps to develop skills for life-long learning.
5. Students are developing team spirit.
